About this guide

WHAT is this guide used for?

This guide includes context and step-by-step 'how to's' about the **D365 F&O: AR Collections Collection Activities process**. It has been developed as the primary on-the-job reference to support WTG team members responsible for completing D365 F&O system tasks.

HOW to navigate this guide?

This guide is made up of Parts and Topics. A Part represents a collection of related topics (e.g., a set of related procedures). A Topic represents a specific item of information related to the Part. Each Part and Topic can be accessed from the Table of Contents.

Part 1: What do I need to know?

This part provides an overview of the end-to-end business process covered in this document. It outlines the purpose, scope, and context of the process within the broader functional stream, and introduces key roles, systems, and activities involved.

Part 2: How do I do it?

This part contains detailed steps on completing specific tasks in the D365 system. The instructions used in this guided approach are split into two main (2) sections:

- Action: section one (1) of the information table; one individual action per row, beginning with an italicized verb.
- Description: section two (2) of the information table; location, exact values, context, expected results and relevant notes.

Note: Part 1 and Part 2 will be consistent across all D365 Procedure Guides (PGs). PGs may include additional Parts covering major topics related to the specific module / PG.

Hyperlinks

Hyperlinks are used throughout this document. *Click* on a hyperlink to directly navigate to another topic in this guide, or to an external resource.

Key

The table below defines what colors are used to highlight specific sections in this document:

Color	Definition
	Highlight an off-system action
	Highlights the start / end of a step.
	Highlights the end of the process.

Part 1: What do I need to know? (AR Collections Collection Activities)

High-level process

Part Description

This guide explains how a Collections Officer records an email or telephone contact with a customer as a collection activity on the customer account. It covers creating the activity, selecting its type, entering a concise summary and notes, saving it and checking that it is visible. Reviewing previous activities is covered by the AR Collections Notes and Activities guide.

Initiation

- A Collections Officer has contacted a customer, or been contacted by them, about their account.

Stream

Stream	Process Area	Key Roles
Accounts Receivable	AR Collections	• Collections Officer

Process

The high-level process is as follows:

#	Action	Who	When	Where
1	Record a Customer Collection Activity	Collections Officer	After each email or telephone contact with a customer	D365

© 2026 WiseTech Global

Roles and responsibilities

Overview

The Collections Officer records collection activities in their own D365 session.

Tasks / Business Roles	Collections Officer
Record a Customer Collection Activity	R

*R = Responsible

Key concepts

Overview

Before you start, you need to know what a collection activity is, which activity types apply and where activities are recorded.

Collection activities

Term	Description
Collection activity	A record on the customer account of a collection contact with the customer, such as an email or telephone call. It holds a summary and notes of the interaction.
Activity type	The kind of contact the activity records, for example email or phone. Use the approved activity types.
Summary and notes	A concise summary of the interaction, with notes that give the details another officer needs.

Recording collection history

Rule	Description
Record at customer level	Record collection activities against the customer account rather than against individual invoices, so the full history is visible in the account overview.

Part 2: How do I do it? (AR Collections Collection Activities)

1. Record a Customer Collection Activity

Description

Use this procedure to record an email or telephone contact as a collection activity on the customer account.

Responsibility

- Collections Officer: records each collection contact at customer level.

Initiation

- A Collections Officer has contacted a customer, or been contacted by them, about their account.

Procedure

Complete these steps to record a collection activity:

Action	Description
PROCESS START	*Pre-requisites:* • Access to D365 and to the **Credit and collections** module. *Responsibility:* • Collections Officer
1. *Check* the **Entity**.	Confirm you are signed into the correct **Legal Entity** (top-right).
2. *Click* **Modules**.	From the left-hand **Navigation Pane**, click **Modules**.
3. *Navigate* to the **All customers** page.	From the **Navigation Pane**, *select*: • **Credit and collections >** • **All customers**
4. *Open* the customer account.	Find the customer and open the account.
5. *Click* **New activity**.	Create a new activity for the customer.
6. *Select* the activity type.	Select the type of contact, for example email or phone.
7. *Enter* a summary.	Enter a concise summary of the interaction.
8. *Enter* the notes.	Enter the details of the contact.
9. *Save* the activity.	Save the activity.
10. *Check* the activity is listed.	Check that the activity appears in the customer's activities.
PROCESS COMPLETE	*Outcomes:* • The collection activity is recorded on the customer account and is visible in the customer's activities.
