About this guide

WHAT is this guide used for?

This guide includes context and step-by-step 'how to's' about the **D365 F&O: AR Collections Statement Distribution process**. It has been developed as the primary on-the-job reference to support WTG team members responsible for completing D365 F&O system tasks.

HOW to navigate this guide?

This guide is made up of Parts and Topics. A Part represents a collection of related topics (e.g., a set of related procedures). A Topic represents a specific item of information related to the Part. Each Part and Topic can be accessed from the Table of Contents.

Part 1: What do I need to know?

This part provides an overview of the end-to-end business process covered in this document. It outlines the purpose, scope, and context of the process within the broader functional stream, and introduces key roles, systems, and activities involved.

Part 2: How do I do it?

This part contains detailed steps on completing specific tasks in the D365 system. The instructions used in this guided approach are split into two main (2) sections:

- Action: section one (1) of the information table; one individual action per row, beginning with an italicized verb.
- Description: section two (2) of the information table; location, exact values, context, expected results and relevant notes.

Note: Part 1 and Part 2 will be consistent across all D365 Procedure Guides (PGs). PGs may include additional Parts covering major topics related to the specific module / PG.

Hyperlinks

Hyperlinks are used throughout this document. *Click* on a hyperlink to directly navigate to another topic in this guide, or to an external resource.

Key

The table below defines what colors are used to highlight specific sections in this document:

Color	Definition
	Highlight an off-system action
	Highlights the start / end of a step.
	Highlights the end of the process.

Part 1: What do I need to know? (AR Collections Statement Distribution)

High-level process

Part Description

This guide explains how a Collections Officer generates a customer statement and sends it to the customer through **Print management destination**, then verifies that it was delivered. Previewing a statement without sending it is covered by the AR Collections Statement Preview guide. Excluding customers from statements is outside the scope of this guide.

Initiation

- A customer statement must be sent to the customer.

Stream

Stream	Process Area	Key Roles
Accounts Receivable	AR Collections	• Collections Officer

Process

The high-level process is as follows:

#	Action	Who	When	Where
1	Generate and Send a Customer Statement	Collections Officer	When a customer statement must be sent to the customer	D365

© 2026 WiseTech Global

Roles and responsibilities

Overview

The Collections Officer sends statements in their own D365 session.

Tasks / Business Roles	Collections Officer
Generate and Send a Customer Statement	R

*R = Responsible

Key concepts

Overview

Before you start, you need to know how a statement reaches the customer, how delivery is checked, and what to check before you send.

Statement distribution

Term	Description
Print management destination	The destination that delivers the statement to the customer. When it is selected, generating the statement sends it.
Delivery message	The message D365 shows after the statement is generated, which indicates whether it was sent.
Collections sent mailbox	A mailbox where sent statements can be checked when required.

Before sending

Rule	Description
Check the customer can receive a statement	Before you send, check that the customer is not excluded from statements and is not affected by the known multi-currency limitations.
Use the approved parameters	Send statements only with the approved statement parameters.

Part 2: How do I do it? (AR Collections Statement Distribution)

1. Generate and Send a Customer Statement

Description

Use this topic to send a customer statement and check that it was delivered. You set the statement options, select **Print management destination**, generate the statement and then verify delivery. To review a statement before sending it, use the AR Collections Statement Preview guide.

Responsibility

- Collections Officer: sends customer statements and verifies delivery.

Initiation

- A customer statement must be sent to the customer.

Topic Overview

This topic includes these steps:

Step	Description
Send the Statement	Set the statement options and generate it with Print management destination. Output: the statement is sent.
Verify Statement Delivery	Check the delivery message and, where required, the Collections sent mailbox. Output: delivery is confirmed.

1.1 Send the Statement

Procedure

Complete these steps to send the statement:

Action	Description
PROCESS START	*Pre-requisites:* • Access to D365 and to customer statements. • The customer account number. • The customer can receive a statement (see **Key concepts**). *Responsibility:* • Collections Officer
1. *Check* the **Entity**.	Confirm you are signed into the correct **Legal Entity** (top-right).
2. *Open* the **Statements** page.	Open the customer statement page.
3. *Select* the customer.	Select the customer account the statement is for.
4. *Select* **Only open**.	Include only open transactions.
5. *Include* the company logo.	Select the option that includes the company logo.
6. *Select* **Print management destination**.	Select this option so the statement is delivered to the customer.
7. *Generate* the statement.	Generate the statement. D365 sends it to the customer.
STEP COMPLETE	• *The statement has been generated and sent.* • *Continue to Verify Statement Delivery*

1.2 Verify Statement Delivery

Procedure

Complete these steps to verify statement delivery:

Action	Description
PROCESS START	*Pre-requisites:* • The statement has been sent (see Send the Statement). *Responsibility:* • Collections Officer
1. *Check* the delivery message.	Read the message D365 shows after the statement is generated, and check that it confirms the statement was sent.
2. *Check* the Collections sent mailbox.	Optional. Where required, check that the statement appears in the Collections sent mailbox. Otherwise, go to step 3.
3. *Confirm* the statement was delivered.	If the delivery message or mailbox shows that the statement was not sent, follow the failed-delivery process.
PROCESS COMPLETE	*Outcomes:* • The statement has been sent to the customer and its delivery confirmed.
