# About this guide

## WHAT is this guide used for?

This guide includes context and step-by-step 'how to's' about the **D365 F&O: AR Collections Personalized Views process**. It has been developed as the primary on-the-job reference to support WTG team members responsible for completing D365 F&O system tasks.

## HOW to navigate this guide?

This guide is made up of Parts and Topics. A Part represents a collection of related topics (e.g., a set of related procedures). A Topic represents a specific item of information related to the Part. Each Part and Topic can be accessed from the Table of Contents.

## Part 1: What do I need to know?

This part provides an overview of the end-to-end business process covered in this document. It outlines the purpose, scope, and context of the process within the broader functional stream, and introduces key roles, systems, and activities involved.

## Part 2: How do I do it?

This part contains detailed steps on completing specific tasks in the D365 system. The instructions used in this guided approach are split into two main (2) sections:

- Action: section one (1) of the information table; one individual action per row, beginning with an italicized verb.
- Description: section two (2) of the information table; location, exact values, context, expected results and relevant notes.

**Note:** Part 1 and Part 2 will be consistent across all D365 Procedure Guides (PGs). PGs may include additional Parts covering major topics related to the specific module / PG.

## Hyperlinks

Hyperlinks are used throughout this document. *Click* on a hyperlink to directly navigate to another topic in this guide, or to an external resource.

## Key

The table below defines what colors are used to highlight specific sections in this document:

| Color | Definition |
|---|---|
| | Highlight an off-system action |
| | Highlights the start / end of a step. |
| | Highlights the end of the process. |

# Part 1: What do I need to know? (AR Collections Personalized Views)

## High-level process

### Part Description

This guide explains how a Collections Officer creates, saves and updates a personalized view of a D365 page, so the page shows the columns, filters and totals needed for collection work. It covers arranging columns, filtering the list, adding a footer total, saving the layout as a named view, pinning the view as the default and updating a saved view. Views are set up separately for each page. Exporting data and the use of specific AR pages are outside the scope of this guide.

### Initiation

- A page does not show the information needed for collection work, such as due dates, currencies or overdue balances.

### Stream

| Stream | Process Area | Key Roles |
|---|---|---|
| Accounts Receivable | AR Collections | • Collections Officer |

### Process

The high-level process is as follows:

| # | Action | Who | When | Where |
|---|---|---|---|---|
| 1 | Create a Personalized View | Collections Officer | When a page does not show the information needed for collection work | D365 |
| 2 | Update a Saved View | Collections Officer | When a saved view needs a further change | D365 |

© 2026 WiseTech Global

# Roles and responsibilities

## Overview

The Collections Officer creates and maintains views in their own D365 session.

| Tasks / Business Roles | Collections Officer |
|---|---|
| Create a Personalized View | R |
| Update a Saved View | R |

*R = Responsible

# Key concepts

## Overview

Before you start, you need to know what a view contains, the filter operators used in this guide and the columns recommended for AR Collections work.

## What a view contains

| Term | Description |
|---|---|
| **View** | A saved layout for a page: the columns shown and their order, any filters and any footer totals. |
| **Default view** | The view you pin as the default for a page. |
| **View scope** | Views are set up separately for each page. Set up a view on each page you use. |

## Filter operators

| Operator | Use |
|---|---|
| **not equal to** | Excludes rows that have the value you enter. For example, a balance not equal to **0** excludes zero-balance accounts. |
| **is one of** | Includes only rows that match one of several values you select. |

## Columns recommended for AR Collections views

| Column | Notes |
|---|---|
| **Recommended columns** | Customer account, Customer name, Transaction date, Due date, Description, Amount, Currency, Overdue balance and Email address. |

# Part 2: How do I do it? (AR Collections Personalized Views)

## 1. Create a Personalized View

### Description

Use this topic to set up a page so that it shows the information you need for collection work, then save that layout as a named view and pin it as your default. You arrange the columns, optionally filter the rows and add a footer total, and then save the view. Views are set up separately for each page, so repeat this topic for each page you use.

### Responsibility

- Collections Officer: creates views for the pages they use.

### Initiation

- A page does not show the information needed for collection work, such as due dates, currencies or overdue balances.

### Topic Overview

This topic includes these steps:

| Step | Description |
|---|---|
| Arrange the Columns | Add, remove and reorder columns. Output: the grid shows the columns you need. |
| Filter the List | Optional. Limit the rows shown, for example to exclude zero balances. Output: the grid shows only the rows you need. |
| Add a Footer Total | Optional. Show a total for a column in the grid footer. Output: the footer shows the total. |
| Save and Pin the View | Save the layout as a named view and pin it as your default. Output: a saved default view for the page. |

# 1.1 Arrange the Columns

## Procedure

Complete these steps to show the columns you need, in the order you need:

| Action | Description |
|---|---|
| *PROCESS START* | *Pre-requisites:*<br>• Access to D365 and to the page you want to personalize.<br>*Responsibility:*<br>• Collections Officer |
| 1. *Check* the **Entity**. | Confirm you are signed into the correct **Legal Entity** (top-right). |
| 2. *Open* the page you want to personalize. | Open the page whose layout you want to save, for example a page in your **Favorites**. |
| 3. *Click* **Insert columns**. | Use **Insert columns** to add columns that the grid does not currently show. |
| 4. *Select* the columns to add. | Select each column you need for collection work. See **Columns recommended for AR Collections views** in Key concepts. |
| 5. *Confirm* the selected columns are added to the grid. | Check that each selected column now appears in the grid. |
| 6. *Remove* each column you do not need. | Remove columns that are not needed for collection work, so the grid stays readable. |
| 7. *Move* the columns into the order you need. | Reposition the columns so the information you check first appears first. |
| *STEP COMPLETE* | • *The grid shows the columns you need, in your chosen order.*<br>• *Continue to Filter the List* |

# 1.2 Filter the List

## Procedure

This subprocedure is optional. Complete it when the view should show only some rows. Otherwise, continue to Add a Footer Total.

Complete these steps to show only the rows you need:

| Action | Description |
|---|---|
| *PROCESS START* | *Pre-requisites:*<br>• The grid shows the columns you need (see Arrange the Columns).<br>*Responsibility:*<br>• Collections Officer |
| 1. *Open* the filter for the column. | Open the filter for the column whose values you want to limit. |
| 2. *Select* the filter operator. | Select the operator that matches the rows you want, for example **not equal to** to exclude a value or **is one of** to include several values. See **Filter operators** in Key concepts. |
| 3. *Enter* the filter value. | Enter the value or values for the operator. For example, to exclude zero balances, use **not equal to** with the value **0**. |
| 4. *Confirm* only the required rows are displayed. | Check that the grid shows only the rows that match the filter. |
| *STEP COMPLETE* | • *The grid shows only the rows you need.*<br>• *Continue to Add a Footer Total* |

# 1.3 Add a Footer Total

## Procedure

This subprocedure is optional. Complete it when the view should show a total for a column. Otherwise, continue to Save and Pin the View.

Complete these steps to show a column total in the grid footer:

| Action | Description |
|---|---|
| *PROCESS START* | *Pre-requisites:*<br>• The grid shows the columns you need (see Arrange the Columns).<br>*Responsibility:*<br>• Collections Officer |
| 1. *Show* the grid footer. | Turn on the footer for the grid. |
| 2. *Add* a **Sum** to the column. | Add a sum for the column you want totaled, such as an amount or balance column. |
| 3. *Confirm* the total is displayed. | Check that the footer shows the total for the column. |
| *STEP COMPLETE* | • *The footer shows the total for the column.*<br>• *Continue to Save and Pin the View* |

© 2026 WiseTech Global

# 1.4 Save and Pin the View

## Procedure

Complete these steps to save the layout as a named view and pin it as your default:

| Action | Description |
|---|---|
| *PROCESS START* | *Pre-requisites:*<br>• The grid shows the columns, and any filters and totals, you need (see Arrange the Columns).<br>*Responsibility:*<br>• Collections Officer |
| 1. *Click* **Save as**. | Save the current layout as a new view. |
| 2. *Enter* the view name. | Enter a name that identifies the page and the purpose of the view. |
| 3. *Save* the new view. | Save the view with the name you entered. |
| 4. *Select* **Pin as default**. | Pin the view as your default for this page. |
| 5. *Confirm* the view is saved and pinned. | Check that your view is listed for this page and is set as the default. |
| *PROCESS COMPLETE* | *Outcomes:*<br>• The page has a saved view with the columns, filters and totals you set.<br>• The view is pinned as your default for this page. |

# 2. Update a Saved View

## Description

Use this procedure when a saved view needs a further change, such as an added column, a changed filter or a new total. You select the saved view, make the change and save it, so the view keeps the change the next time you use it.

## Responsibility

- Collections Officer: maintains the views they have saved.

## Initiation

- A saved view needs a further change.

## Procedure

Complete these steps to update a saved view:

| Action | Description |
|---|---|
| *PROCESS START* | *Pre-requisites:*<br>• A saved view for the page (see Create a Personalized View).<br>*Responsibility:*<br>• Collections Officer |
| 1. *Check* the **Entity**. | Confirm you are signed into the correct **Legal Entity** (top-right). |
| 2. *Open* the page that has the saved view. | Open the page whose view you want to change. |
| 3. *Select* the saved view. | Select the view you want to change. |
| 4. *Make* the change to the layout. | Change the columns, filters or totals as described in Create a Personalized View. |
| 5. *Click* **Save**. | Save the change to the selected view. |
| 6. *Confirm* the view shows the change. | Check that the selected view now includes the change. |
| *PROCESS COMPLETE* | *Outcomes:*<br>• The saved view includes the change. |
