About this guide

WHAT is this guide used for?

This guide includes context and step-by-step 'how to's' about the **D365 F&O: AR Collections Statement Preview process**. It has been developed as the primary on-the-job reference to support WTG team members responsible for completing D365 F&O system tasks.

HOW to navigate this guide?

This guide is made up of Parts and Topics. A Part represents a collection of related topics (e.g., a set of related procedures). A Topic represents a specific item of information related to the Part. Each Part and Topic can be accessed from the Table of Contents.

Part 1: What do I need to know?

This part provides an overview of the end-to-end business process covered in this document. It outlines the purpose, scope, and context of the process within the broader functional stream, and introduces key roles, systems, and activities involved.

Part 2: How do I do it?

This part contains detailed steps on completing specific tasks in the D365 system. The instructions used in this guided approach are split into two main (2) sections:

- Action: section one (1) of the information table; one individual action per row, beginning with an italicized verb.
- Description: section two (2) of the information table; location, exact values, context, expected results and relevant notes.

Note: Part 1 and Part 2 will be consistent across all D365 Procedure Guides (PGs). PGs may include additional Parts covering major topics related to the specific module / PG.

Hyperlinks are used throughout this document. *Click* on a hyperlink to directly navigate to another topic in this guide, or to an external resource.

Key

The table below defines what colors are used to highlight specific sections in this document:

Color	Definition
	Highlight an off-system action
	Highlights the start / end of a step.
	Highlights the end of the process.

Part 1: What do I need to know? (AR Collections Statement Preview)

High-level process

Part Description

This guide explains how a Collections Officer generates a customer statement on screen to review it, without sending it to the customer, and downloads it as a PDF. The preview uses **Screen** as the destination instead of **Print management**. Sending a statement to the customer is covered by a separate guide.

Initiation

- A Collections Officer needs to review a customer statement, or needs a copy of it, without sending it to the customer.

Stream

Stream	Process Area	Key Roles
Accounts Receivable	AR Collections	• Collections Officer

Process

The high-level process is as follows:

#	Action	Who	When	Where
1	Preview and Download a Customer Statement	Collections Officer	When a statement must be reviewed or copied without sending it to the customer	D365

© 2026 WiseTech Global

Roles and responsibilities

Overview

The Collections Officer previews and downloads statements in their own D365 session.

Tasks / Business Roles	Collections Officer
Preview and Download a Customer Statement	R

*R = Responsible

Key concepts

Overview

Before you start, you need to know how statement destinations work, so that a preview is not sent to the customer, and the rule for customer-facing documents.

Statements and destinations

Term	Description
Customer statement	A document that lists a customer's transactions. With **Only open** selected, it lists only open transactions.
Print management destination	The destination used to deliver a statement to the customer. Clear it when you only want to preview the statement.
Screen destination	Displays the statement on screen so you can review it and download it, without sending it.

Previewing safely

Rule	Description
Check the destination first	Before you generate a preview, check that **Print management destination** is cleared and **Screen** is selected.
Use PDF, not Excel	Provide customer-facing account information as a PDF. Do not send a customer an Excel export.

Part 2: How do I do it? (AR Collections Statement Preview)

1. Preview and Download a Customer Statement

Description

Use this topic to generate a customer statement on screen and, when you need a copy, download it as a PDF. You set the statement options, clear **Print management destination**, select **Screen**, review the statement and then download it.

Responsibility

- Collections Officer: previews customer statements without sending them.

Initiation

- A Collections Officer needs to review a customer statement, or needs a copy of it, without sending it to the customer.

Topic Overview

This topic includes these steps:

Step	Description
Generate the Statement Preview	Set the statement options and generate it with Screen as the destination. Output: the statement is shown on screen.
Download the Statement as PDF	Optional. Download the statement as a PDF with a meaningful file name. Output: a PDF copy of the statement.

1.1 Generate the Statement Preview

Procedure

Complete these steps to generate the statement preview:

Action	Description
PROCESS START	*Pre-requisites:* • Access to D365 and to customer statements. • The customer account number. *Responsibility:* • Collections Officer
1. *Check* the **Entity**.	Confirm you are signed into the correct **Legal Entity** (top-right).
2. *Open* the **Statements** page.	Open the customer statement page.
3. *Select* the customer.	Select the customer account the statement is for.
4. *Select* **Only open**.	Include only open transactions.
5. *Include* the company logo.	Select the option that includes the company logo.
6. *Clear* **Print management destination**.	Clear this option so the statement is not delivered to the customer.
7. *Select* **Screen** as the destination.	Set the destination to **Screen**.
8. *Generate* the statement.	Generate the statement. It opens on screen.
9. *Review* the statement.	Check that it shows the correct customer and their open transactions.
STEP COMPLETE	• *The statement is open on screen.* • *Continue to Download the Statement as PDF*

© 2026 WiseTech Global

1.2 Download the Statement as PDF

Procedure

This subprocedure is optional. Complete it when you need a copy of the statement. If you only needed to review it, the task is complete.

Complete these steps to download the statement as a PDF:

Action	Description
PROCESS START	*Pre-requisites:* • The statement is open on screen (see Generate the Statement Preview). *Responsibility:* • Collections Officer
1. *Download* the statement as a PDF.	From the on-screen statement, download it as a PDF file.
2. *Enter* a meaningful file name.	Name the file so the customer and the statement date can be identified.
3. *Save* the PDF.	Save the PDF file.
4. *Confirm* the PDF shows the correct statement.	Open the PDF and check that it shows the statement you reviewed.
PROCESS COMPLETE	*Outcomes:* • The statement is saved as a PDF and has not been sent to the customer.

Part 3: Reports (AR Collections Statement Preview)

Overview

Reports for this process are pending SME confirmation.
