About this guide

WHAT is this guide used for?

This guide includes context and step-by-step 'how to's' about the **D365 F&O: AR Collections Customer Invoices process**. It has been developed as the primary on-the-job reference to support WTG team members responsible for completing D365 F&O system tasks.

HOW to navigate this guide?

This guide is made up of Parts and Topics. A Part represents a collection of related topics (e.g., a set of related procedures). A Topic represents a specific item of information related to the Part. Each Part and Topic can be accessed from the Table of Contents.

Part 1: What do I need to know?

This part provides an overview of the end-to-end business process covered in this document. It outlines the purpose, scope, and context of the process within the broader functional stream, and introduces key roles, systems, and activities involved.

Part 2: How do I do it?

This part contains detailed steps on completing specific tasks in the D365 system. The instructions used in this guided approach are split into two main (2) sections:

- Action: section one (1) of the information table; one individual action per row, beginning with an italicized verb.
- Description: section two (2) of the information table; location, exact values, context, expected results and relevant notes.

Note: Part 1 and Part 2 will be consistent across all D365 Procedure Guides (PGs). PGs may include additional Parts covering major topics related to the specific module / PG.

Part 1: What do I need to know? (AR Collections Customer Invoices)

High-level process

Part Description

This guide explains how a Collections Officer opens a customer invoice from the customer's transactions, reviews it in print preview and downloads it as a PDF. The invoice is reached through **Original document** and **Print preview** on the highlighted transaction. Finding transactions on the customer account, and sending the invoice to the customer, are outside the scope of this guide.

Initiation

- A customer or colleague needs a copy of an invoice, or the invoice must be reviewed before contacting the customer.

Stream

Stream	Process Area	Key Roles
Accounts Receivable	AR Collections	• Collections Officer

Process

The high-level process is as follows:

#	Action	Who	When	Where
1	View and Download a Customer Invoice	Collections Officer	When a copy of an invoice is needed, or an invoice must be reviewed before contacting the customer	D365

Key concepts

Overview

Before you start, you need to know how D365 links an invoice to its transaction, how to select a transaction row, and the rule for sending documents to customers.

Invoices and transactions

Term	Description
Original document	The document D365 produced for a posted transaction, such as the customer invoice. You open it from the transaction it belongs to.
Print preview	Shows the original document on screen so you can review it and download it as a PDF.
Highlighted row	Click a transaction row to highlight it before you open its original document. Highlighting a row is not the same as marking it with its checkbox.

Sending documents to customers

Rule	Description
Use PDF, not Excel	Provide customer-facing account information as a PDF. Do not send a customer an Excel export.

Part 2: How do I do it? (AR Collections Customer Invoices)

1. View and Download a Customer Invoice

Description

Use this topic to open a customer invoice and, when you need a copy, download it as a PDF. You highlight the invoice transaction, open its **Original document**, review the invoice in **Print preview** and then download it with a file name that identifies the customer and invoice.

Responsibility

- Collections Officer: retrieves and reviews customer invoices.

Initiation

- A customer or colleague needs a copy of an invoice, or the invoice must be reviewed before contacting the customer.

Topic Overview

This topic includes these steps:

Step	Description
Open the Invoice Preview	Highlight the invoice transaction and open the invoice in Print preview. Output: the invoice is shown on screen.
Download the Invoice as PDF	Optional. Download the invoice as a PDF with a meaningful file name. Output: a PDF copy of the invoice.

1.1 Open the Invoice Preview

Procedure

Complete these steps to open the invoice in print preview:

Action	Description
PROCESS START	*Pre-requisites:* • Access to D365 and to the customer account. • The customer account and the invoice you need. *Responsibility:* • Collections Officer
1. *Check* the **Entity**.	Confirm you are signed into the correct **Legal Entity** (top-right).
2. *Open* the customer's transactions.	Open the transactions for the customer account, for example from **All customers** in your **Favorites**.
3. *Click* the invoice transaction.	Click the row for the invoice so it is highlighted.
4. *Click* **Original document**.	Open the original document for the highlighted transaction.
5. *Select* the invoice.	Select the invoice in the list of original documents.
6. *Click* **Print preview**.	The invoice opens in print preview.
7. *Confirm* it is the invoice you need.	Review the invoice information in the preview and check that it is the invoice you selected.
STEP COMPLETE	• *The invoice is open in print preview.* • *Continue to Download the Invoice as PDF*

1.2 Download the Invoice as PDF

Procedure

This subprocedure is optional. Complete it when you need a copy of the invoice, for example to send to a customer. If you only needed to review the invoice, the task is complete.

Complete these steps to download the invoice as a PDF:

Action	Description
PROCESS START	*Pre-requisites:* • The invoice is open in print preview (see Open the Invoice Preview). *Responsibility:* • Collections Officer
1. *Download* the invoice as a PDF.	From the print preview, download the invoice as a PDF file.
2. *Enter* a meaningful file name.	Name the file so the customer and the invoice can be identified.
3. *Save* the PDF.	Save the PDF file.
4. *Confirm* the PDF shows the correct invoice.	Open the PDF and check that it shows the invoice you selected.
PROCESS COMPLETE	*Outcomes:* • The invoice is saved as a PDF with a file name that identifies the customer and invoice.
