About this guide

WHAT is this guide used for?

This guide includes context and step-by-step 'how to's' about the **D365 F&O: AR Collections Favorites process**. It has been developed as the primary on-the-job reference to support WTG team members responsible for completing D365 F&O system tasks.

HOW to navigate this guide?

This guide is made up of Parts and Topics. A Part represents a collection of related topics (e.g., a set of related procedures). A Topic represents a specific item of information related to the Part. Each Part and Topic can be accessed from the [Table of Contents](#).

Part 1: What do I need to know?

This part provides an overview of the end-to-end business process covered in this document. It outlines the purpose, scope, and context of the process within the broader functional stream, and introduces key roles, systems, and activities involved.

Part 2: How do I do it?

This part contains detailed steps on completing specific tasks in the D365 system. The instructions used in this guided approach are split into two main (2) sections:

- Action: section one (1) of the information table; one individual action per row, beginning with an italicized verb.
- Description: section two (2) of the information table; location, exact values, context, expected results and relevant notes.

Note: Part 1 and Part 2 will be consistent across all D365 Procedure Guides (PGs). PGs may include additional Parts covering major topics related to the specific module / PG.

Hyperlinks

Hyperlinks are used throughout this document. *Click* on a hyperlink to directly navigate to another topic in this guide, or to an external resource.

Key

The table below defines what colors are used to highlight specific sections in this document:

Color	Definition
	Highlight an off-system action
	Highlights the start / end of a step.
	Highlights the end of the process.

Part 1: What do I need to know? (AR Collections Favorites)

High-level process

Part Description

This guide explains how an AR Collections user adds four D365 pages used in AR Collections work to their Favorites: **All customers**, **Aged balances**, **Customer payment journal** and **Open customer invoices**. Once added, these pages open directly from **Favorites** in the **Navigation Pane** instead of through the module menus. This is a day-one setup task, completed in D365 before routine AR Collections work begins. Switching the legal entity and creating personalized views are outside the scope of this guide.

Initiation

- A new AR Collections user is setting up D365 before starting routine AR Collections work.

Stream

Stream	Process Area	Key Roles
Accounts Receivable	AR Collections	• Collections Officer

Process

The high-level process is as follows:

#	Action	Who	When	Where
1	Configure AR Collections Favorites	Collections Officer	When a new AR Collections user sets up D365 before starting routine AR Collections work	D365

Roles and responsibilities

Overview

The Collections Officer completes this task in their own D365 session.

Tasks / Business Roles	Collections Officer
Configure AR Collections Favorites	R

*R = Responsible

Key concepts

Overview

Before you start, you need to know the two **Navigation Pane** options used in this guide and the four pages you add to your Favorites.

Navigation Pane options used in this guide

Option	Description
Modules	Opens the list of D365 modules, such as Credit and collections and Accounts receivable . Clicking a module opens its module menu.
Favorites	Lists the pages you have added as favorites. Click a page in the list to open it.

AR Collections pages to add to Favorites

Page	Description
All customers	Located in the Credit and collections module. Used to open customer accounts and customer master details.
Aged balances	Located in the Credit and collections module. Used to review customer balances by aging period.
Customer payment journal	Located in the Credit and collections module. Identified in AR Collections training as a key page for AR Collections users.
Open customer invoices	Located in the Accounts receivable module. Used to review open customer invoices.

Part 2: How do I do it? (AR Collections Favorites)

1. Configure AR Collections Favorites

Description

Use this procedure to add **All customers**, **Aged balances** and **Customer payment journal** from the **Credit and collections** module, and **Open customer invoices** from the **Accounts receivable** module, to your Favorites. You then check that all four pages appear under **Favorites** in the **Navigation Pane**. When complete, you can open each page directly from **Favorites**.

Responsibility

- Collections Officer: adds the four AR Collections pages to their own Favorites.

Initiation

- A new AR Collections user is setting up D365 before starting routine AR Collections work.

Procedure

Complete these steps to add the AR Collections pages to your Favorites:

Action	Description
