About this guide

WHAT is this guide used for?

This guide includes context and step-by-step 'how to's' about the **D365 F&O: AR Collections Notes and Activities process**. It has been developed as the primary on-the-job reference to support WTG team members responsible for completing D365 F&O system tasks.

HOW to navigate this guide?

This guide is made up of Parts and Topics. A Part represents a collection of related topics (e.g., a set of related procedures). A Topic represents a specific item of information related to the Part. Each Part and Topic can be accessed from the Table of Contents.

Part 1: What do I need to know?

This part provides an overview of the end-to-end business process covered in this document. It outlines the purpose, scope, and context of the process within the broader functional stream, and introduces key roles, systems, and activities involved.

Part 2: How do I do it?

This part contains detailed steps on completing specific tasks in the D365 system. The instructions used in this guided approach are split into two main (2) sections:

- Action: section one (1) of the information table; one individual action per row, beginning with an italicized verb.
- Description: section two (2) of the information table; location, exact values, context, expected results and relevant notes.

Note: Part 1 and Part 2 will be consistent across all D365 Procedure Guides (PGs). PGs may include additional Parts covering major topics related to the specific module / PG.

Hyperlinks

Hyperlinks are used throughout this document. *Click* on a hyperlink to directly navigate to another topic in this guide, or to an external resource.

Key

The table below defines what colors are used to highlight specific sections in this document:

Color	Definition
	Highlight an off-system action
	Highlights the start / end of a step.
	Highlights the end of the process.

Part 1: What do I need to know? (AR Collections Notes and Activities)

High-level process

Part Description

This guide explains how a Collections Officer reviews a customer's collection history in D365 before contacting the customer. It covers filtering the **Notes** page to one customer and, if needed, by creator, date or note type, and opening **View all activities** from the customer account. Recording a new collection activity is outside the scope of this guide.

Initiation

- A Collections Officer needs to review previous collection notes and contact with a customer before contacting them.

Stream

Stream	Process Area	Key Roles
Accounts Receivable	AR Collections	• Collections Officer

Process

The high-level process is as follows:

#	Action	Who	When	Where
1	Review Customer Notes	Collections Officer	Before contacting a customer, to see previous collection notes	D365
2	Review All Customer Activities	Collections Officer	Before contacting a customer, to see previous contact with them	D365

Roles and responsibilities

Overview

The Collections Officer reviews notes and activities in their own D365 session.

Tasks / Business Roles	Collections Officer
Review Customer Notes	R
Review All Customer Activities	R

*R = Responsible

Key concepts

Overview

Before you start, you need to know what the Notes page and customer activities show, and where collection notes are recorded.

Notes and activities

Term	Description
Notes	A page in the **Customer credit and collections** workspace that lists notes recorded against customer accounts. You filter it to see one customer's collection history.
System-generated entries	The Notes page lists entries created by D365, such as statements and collection letters, alongside notes entered by users.
Customer activities	Records of collection contact with a customer, such as an email or phone activity. **View all activities** on the customer account lists them.

Recording collection history

Rule	Description
Record notes at customer level	Collection notes are recorded against the customer account rather than against individual invoices, so the full history is in one place.

Part 2: How do I do it? (AR Collections Notes and Activities)

1. Review Customer Notes

Description

Use this procedure to filter the **Notes** page to one customer, narrow it if needed, and review the customer's collection notes.

Responsibility

- Collections Officer: reviews a customer's collection notes before contacting them.

Initiation

- A Collections Officer needs to review previous collection notes before contacting a customer.

Procedure

Complete these steps to review a customer's notes:

Action	Description
PROCESS START	*Pre-requisites:* • Access to D365 and to the **Customer credit and collections** workspace. • The customer account number. *Responsibility:* • Collections Officer
1. *Check* the **Entity**.	Confirm you are signed into the correct **Legal Entity** (top-right).
2. *Open* the **Notes** page.	Open **Notes** from the **Customer credit and collections** workspace.
3. *Open* the filter for the customer column.	Open the filter for the customer column.
4. *Enter* the customer account.	Enter or select the customer account number.
5. *Apply* the filter.	Apply the filter. Only notes for that customer are listed.
6. *Filter* by creator, date or note type.	Optional. Filter the creator, date or note type column in the same way. Otherwise, go to step 7.
7. *Review* the notes.	Read the notes. Check which entries were entered by users and which were created by D365.
8. *Confirm* you have the customer's collection history.	Check that the list shows only the customer you selected and covers the period you need.
PROCESS COMPLETE	*Outcomes:* • You have reviewed the customer's collection notes.

2. Review All Customer Activities

Description

Use this procedure to review all recorded activities for a customer. You open the customer account from **All customers** and then open **View all activities** to see the customer's contact history.

Responsibility

- Collections Officer: reviews a customer's contact history before contacting them.

Initiation

- A Collections Officer needs to review previous contact with a customer before contacting them.

Procedure

Complete these steps to review a customer's activities:

Action	Description
PROCESS START	*Pre-requisites:* • Access to D365 and to the **Credit and collections** module. • The customer account number. *Responsibility:* • Collections Officer
1. *Check* the **Entity**.	Confirm you are signed into the correct **Legal Entity** (top-right).
2. *Click* **Modules**.	From the left-hand **Navigation Pane**, click **Modules**.
3. *Navigate* to the **All customers** page.	From the **Navigation Pane**, *select*: • **Credit and collections >** • **All customers** If **All customers** is in your **Favorites** (see the AR Collections Favorites guide), you can open it from **Favorites** instead.
4. *Open* the customer account.	Find the customer and open the account.
5. *Click* **View all activities**.	Open the list of activities recorded for the customer.
6. *Filter* the activities.	Optional. Filter the list to the activities you need. If you don't need to filter, go to step 7.
7. *Review* the customer's contact history.	Read the activities to see when and how the customer was contacted.
PROCESS COMPLETE	*Outcomes:* • You have reviewed the customer's recorded activities.
